1. Progress Toward Goal

All reported on interaction with neighbors. To-date we have met with 30 neighbors for 19% completion.

- Jeff will share with the committee a letter that he is using to encourage neighbors to reach out to schedule a face-to-face when it is convenient for the neighbor.

2. Campground fishing regulations signs

- Cost of the signs will be covered by the committee's \$7K budget.
- As Dale was absent, we tabled a report on the progress he has made.

3. Next Project

- Committee is interested in taking on one new project, as we have completed water testing
- Discussed issues raised at the June 1 LMMD membership meeting: especially disposal of carp caught and buoy placement and related signage.
- Committee is very interested in hearing from Jennifer Bergman from the DNR at our next Zoom meeting on July 15. After that the Committee would like to choose our next project.
